Get Started and Register Today!

Patient Portal

- After providing a valid email address to Sunset staff and receiving an enrollment token #. Follow this link: **http://www.nextmd.com/Enroll**

- Enter your enrollment token and your e-mail address. **Verify that your email address is correct.**

- Choose a user name and password. **Your user name and password are case sensitive.** Your user name must be at least 6 characters long and cannot be more 20 characters long. Your password must be at least 6 characters long, cannot be more than 20 characters long, and must contain at least one number.

- Choose a Login Security Question from the list and provide your answer for this question.

- Set up NextMD's secure password reset feature. NextMD will ask you to select a question and provide an answer to it. If you forget the password you will have to answer this question again to reset it.

Patient Portal

Patients can use *Patient Portal* to:
- E-mail health related questions to their provider.
- Request an appointment or referral.
- Request prescription refills.
- View lab results.
- Follow your health 24/7 via laptop, smartphone, or tablet.

Medical personnel use *Patient Portal* to:
- Send patients post-visit clinical summaries and lab results via an attachment.
- Respond to patient messages in between seeing patients to complete tasks more efficiently and avoid "phone tag" with patients.

After creating a *Patient Portal,* the practice's dedicated triage nurse becomes responsible for reviewing all incoming messages and responding personally through the patient portal and conferring with other providers, as needed.

Get Started....

1st STEP: Patients provide their e-mail address to the Sunset staff during the visit, then our system will generated enrollment token. *(Patients without an e-mail can be helped to create one.)*

2nd STEP: A message is instantly delivered to the patient's e-mail address encouraging to complete the second step of the *Patient Portal* enrollment process.

⇒ **Manage your Medical Records**
⇒ **Communicate with your doctor!**
